A Charity Bazaar.

Beginning on October 11, and continuing until October 15, inclusive, a bazaar, with typical German element features, is to be held at Joven Hall, in San Antonio, for benefit of the war sufferers of many and her allied countries. Several of the sister States, charitably of a similar nature have been held with very successful results. However, as the end of the conflict is not yet in sight, the aid for assistance is not lessened. On the contrary, aid is the more necessary as the number of widowed and orphaned survivors daily increases. Therefore, we are taking the liberty of placing upon our ever very generous people of Texas to assist us in our efforts to alleviate the sufferings of whom the conflict has left in its

several months committees have faithfully at work, giving their aid and effort to make this bazaar an allied success. Reduced fares have been obtained on all railroads en route to San Antonio, which will enable those who are in sympathy with our efforts to attend the bazaar in person. Those who will be unable to attend would say that any donation of money, or gifts suitable to be sold at the bazaar, will be most thankfully received.

Services of artists have been secured to transform Beech Hall and Garden into an ancient city with its typical towns and villages and the attendants at the various tables to wear the native costumes of the times.

Contributions to the bazaar should be addressed to the treasurer, Mr. V. Dielmann, No. 306 E. Commerce St., San Antonio, Texas.

Mesquite Bean is a Valuable Feed.

The State Department of Agriculture has issued the following in one of their weekly crop reports:

To Dilley, in Frio county, belongs the distinction of pioneering in a new feed industry. There has been shipped from this place this season 110 tons of mesquite beans. These beans sold readily at \$14 per ton to feeders of horses and mules, and the demand has been greater than the supply. They carry well, one car having remained loaded for nine days without showing any indication of heating. The beans may be fed whole or crushed into an excellent meal or chop, and an analysis and feeding test shows them to possess a feeding value approximating, if not superior to corn. Owing to the fondness of weevils for the beans they do not keep long unless treated with bisulphide of carbon in a similar manner to treating ear corn.

At Gardendale, only 12 miles from Dilley, the kids and many Mexicans kept busy for over two months picking mesquite beans which they sold to local farmers and stockmen. A large part was also sold to the people of Cotulla, the county seat of LaSalle county, six miles from Gardendale. Southwest Farmer and Investor.

An analysis of the mesquite bean, made some years ago at the Arizona Agricultural Experiment Station, shows the following comparative analysis:

Percentage in—	Mesquite Beans	Corn	Oats
Moisture	5.26	11.08	10.70
Dry matter	94.04	88.92	89.30
Crude ash	5.20	1.43	3.00
Crude fat	5.12	4.92	5.00
Crude cellulose	32.53	1.63	9.00
Albumenoids	14.03	10.60	11.30
Nitrogen	37.13	70.34	61.00
Nutritive ratio	1 to 5.8	1 to 7.9	1 to 7.8

Statement of Ownership,

Management, etc., Required by Act of Congress of August 24, 1912, of the Hondo Anvil Herald, published weekly at Hondo, Texas, for Oct. 1, 1916:

STATE OF TEXAS, ss.

Before me, a notary public in and for the State and county aforesaid, personally appeared Fletcher Davis, who, having been duly sworn according to law, deposes and says that he is the publisher of the Hondo Anvil Herald, and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations, printed on the reverse of this form, to-wit:

1. That the name and address of the publisher, editor, managing editor, and business manager are:

Publisher, Editor, Managing Editor, Business Manager, Fletcher Davis, Hondo, Texas.

2. That the owner is Fletcher Davis, Hondo, Texas.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are:

None.

Did You Get One?

Did you get a subscription statement? If you did and have not yet done what a great many have done—paid the same—let this be a sufficient reminder to cause you to pay up at once. We have cut off all complimentary copies and trimmed our exchange list down to the minimum in the hope that we can avoid the necessity of increasing the price of subscription. If those who desire to keep the paper will pay their subscription promptly and those who for any reason do not wish to receive it any longer will pay up what they owe us and stop it, so we will not lose anything on dead-beats, all will help us materially in this effort. Do this for us now as you would wish us to do by you if our positions were reversed. Remember, any mistakes made in the statements will be cheerfully corrected when

brought to the attention of the writer or to the assistant editor. Where errors appear in the statement look up your old receipts and bring or send them to the office and help us locate the error if any exists. Do this for us now and greatly oblige,

Yours for the best service possible,
FLETCHER DAVIS,
Publisher.

ONE YEAR AGO THE 3400 r.p.m. CHALMERS CAME INTO BEING; NOW 50,000,000 HAPPY MILES LIE BEHIND IT

Just one year ago the 3400 r. p. m. Chalmers was born.

September 30th is its Anniversary Day.

It was untried, unknown, looked a little strange because it was different, and nobody outside of four men knew what it could do.

These four men—the men who had dreamed the car—had little to say.

"What will it do?" they were asked.

"Get in and try," they replied.

And in three days' time every last Chalmers executive had experienced a thrill that was new behind the wheel.

They banged it around in city traffic, abused it on hills, ran it through broken fields, made it take hurdles they would never ask their own personal cars to take.

They were amazed and then they sat down and decided to build three times as many of these cars as they had ever built of any model in a single year before—\$22,000,000 worth.

Then behold the situation. Six months later these 18,000 cars were all built. Then 10,000 more were ordered.

And a few days ago we got word that 20,000 more are being built—48,000 of these 3400 r. p. m. Chalmers.

48,000 in all—a \$56,000,000 business in a single model!

So you see why we are proud to have a birthday party for the car.

Any car that has 50,000,000 happy miles of use behind it certainly has an interesting history and its birthday anniversary is an event.

Remember this is only its first birthday. So successful has the car proven that the Chalmers Company is continuing to build it right through into next year. So you're safe in getting a car now that won't be obsolete in the spring.

Consider the price, \$1090 Detroit.

Come in today. Attend the birthday party.

Mrs. Jack Droitcourt, Hondo, says:
"A severe attack of backache kept
me in the house for two weeks. My
back was a solid pain, scarcely letting
up night or day. I felt miserable and
wasn't able to attend to my house-
work. Two boxes of Doan's Kidney
Pills, which I got at Windrow's Drug

Fashion's Decrees.
Charmeuse gowns are prettily worn
with small flower-trimmed hats.
A great deal of shantung is used for
summer costumes.
A simple frock or coat is set off by
a double cape collar of muslin.
Many of the new collars amount to
ropes, being full and reaching to the
waistline.
Feather-stitching makes a dainty
finish for the edges of the wee tot's
frock.
Charming sports hats are of straw
and trimmed with worsted cords and
tassels.
Heavy washing silk is used for the
serviceable and graceful cross-over
blouses.
Finish the round neck with a piece
of narrow ribbon tied in a fetching
little bow in front.
The soft pile fabrics in the most
beautiful jewellike colorings are con-
stantly being used for big, loose wraps.
Yellow organdie and white tulle make
a charming frock.
Very demure is the child's frock
of organdie with tiny bows of velvet
ribbon set all the way down the front.
We now have skirts designed espe-
cially for gardening. They are made
of linen and have many large pockets.
Frills of tulle complete some of the
new roll collars of muslin and crepe
de chine to be worn with tailored suits.
There are nightgowns of pongee, and
they are trimmed with bands of linen
in contrasting colors.
Silk basques finished with cavalier
tabs are charming with flowered voile
skirts for bridesmaids' frocks.

New Form of Tetanus.
A latent form of tetanus, hitherto
practically unknown, was recently de-
scribed to the Academy of Science,
Paris, according to observations made
by Doctor Bazy, who has been study-
ing it.
It appears from thirty to fifty days
after the patient has been wounded, ir-
respective of the fact whether a pre-
cautionary injection of serum has been
given or not and without apparent
cause, although it is more frequent
after an operation or a fresh outbreak
of inflammation in the wound.
The mortality is unusually high, av-
eraging from one-third to a half of the
cases observed. Doctor Bazy con-
cludes that the first injection when
the wound has been dressed is insuffi-
cient and that the injections should
be repeated every week.

Wood Pigeons a Nuisance.
Wood pigeons have recently caused
a great deal of damage to crops in
Wigtonshire, England, and the stew-
ardy and farmers have organized a
campaign against them. So large has
been the increase of these birds that
the depredations on the crops has be-
come serious. It has been arranged
by the stewardy committee on food
production to observe five Saturdays
as pigeon-shooting days. The arrange-
ments are in the hands of parish com-
mittees; and to all proprietors of the
crops, the request is made to instruct
their game keepers to co-operate with
the parish committee, and to allow
their woods and lands to be entered,
so that the best positions for shooting
may be occupied.—London Mail.

Salts Birds' Tails; Killed.
A four-year-old boy, Bernard Weip-
ert, was killed in his childish effort
to prove the truth of the old adage
that one can easily capture birds by
putting salt on their tails.
The boy and his mother stood on
the curb at American and Poplar
streets waiting for some vehicles to
pass.
The child saw the sparrows in the
street. Quickly leaving his mother's
side, little Bernard ran toward the
birds, clutching a salt shaker, and be-
fore his mother could reach him he
was run over by a wagon loaded with
scrap iron. — Philadelphia Dispatch

To The Public.
For the purpose of organizing Farmers' Institutes, to foster a better study of agricultural conditions and to promote a better community spirit of co-operation, Fletcher Davis, Field Agent of the State Department of Agriculture, will visit the following places in Medina, Frio and Atascosa Counties on the dates named:
Biry, Monday, October 9th.
Enterprise, Tuesday, October 10th.
Black Creek, Wednesday, October 11th.
Bear Creek, Thursday, October 12th.
Devine, Friday, October 13th.
Big Foot, Monday, October 16th.
Miguel, Tuesday, October 17th.
Crown, Wednesday, October 18th.
Jourdanton, Thursday, Friday and Saturday, October 19th, 20th and 21st.
Mr. Davis will speak to the schools at each of these places at some hour convenient to the teachers during the day, and to the general public at some convenient point at 7:30 o'clock in the evening.
The hearty co-operation of the officers and members of Farmers' Institutes already organized, of the teachers and school officials and patrons generally, as well as the public-spirited people every where, is earnestly solicited by the State Department of Agriculture, under whose auspices Mr. Davis appears.
Please lend the State all the assistance you can in making this part of its work efficient and successful.

"Little Orphant Annie"
Says "Jim" Riley Was
the Meanest of Boys

Many will be surprised to learn that there ever was a real "Orphant Annie." "Orphant Annie" is now Mrs. Wesley Gray. Although not a great many miles from the poet's birthplace, Greenfield, Ind., Mrs. Gray's farm is situated in the real, old-fashioned back country.
It was a raw, bleak day when little "Orphant Annie" was brought to the Riley home. She came from a primitive country settlement in a rough wagon, riding on a heavy board laid across it for a seat. . . . She recalled the happenings at the Riley home with amusement and delight.
"Jim Riley," she declared, "was the biggest tense and the meanest boy I ever seen. I used to wonder how he learnt it all; how in the world a boy only twelve years old could be so full of mischief, and such an awful tease. "He would draw ugly pictures of us and write mean things beneath 'em, and I tell you, he just nachurly worried the life out of us. Then he would make his eyes red by rubbing them, and pretend he was sticking gun caps in them. Then he'd pull the gun caps out of his nose. You can't guess how he scared us.
"Then he had a hateful way of doing a trick that a circus man taught him, with a button and a handkerchief, by folding the handkerchief around the button, and then undoing it, and the button wasn't there. That made us awful curious, and we made him do it again and again, until one time he dropped it out of his sleeve."—Ladies' Home Journal.

To Curl Feathers.
Try this method of curling your feathers. Take a round stick and hold the feathers close to it lengthwise and fold the down carefully around the wood. Next slip over it a closely fitting bag of any material; this bag should be a trifle larger than the curling stick. Hold this bag in the steam of a kettle until thoroughly dampened, after which place in a warm spot to dry. When the bag is removed it will be found that the feather is nicely curled.

Wise and Otherwise.
Time may be money to everybody but the loafer.

Dead men tell no tales, but some of their widows may draw pensions.
As long as a man can keep his temper he isn't his own worst enemy.
A bachelor says that matrimony is one of the blanks in love's lottery.
A woman's idea of an entertaining man is one who says nothing and listens.
Spendthrifts may be so called because they have nothing in common with thrift.
A girl's best insurance against trouble is to make a confidant of her mother.
It's a woman's natural faith that enables her to believe only the things she wants to when she knows she doesn't.

WHY YOU ARE NERVOUS
The nervous system is the alarm system of the human body.
In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown.
To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.

ARTICLE NO. 694, PENAL CODE OF TEXAS.
"If any person shall suffer any substance, injurious to the health of those who reside in the vicinity, to remain on premises in his possession, he shall be punished by fine not less than \$10.00 nor more than \$100.00, and each day he permits such substance to remain on the said premises shall constitute a separate offense."
The attention of the public is directed to the above law. A good many people in this community have surface closets on their premises. A surface closet, to be sanitary and to be within the law, must be screened and cleaned out every day. Inasmuch as this community has no scavenger this is impracticable, and the public is hereby notified that pits must be provided at least six feet in depth and kept duly disinfected by use of some suitable disinfectant, such as lime. Owing to the prevalence of Typhoid Fever, Malaria, Dengue, Diphtheria, Typhus and Scarlet Fever, I feel it incumbent upon me as County Health Officer of Medina County to see that the said law is strictly enforced. I request the citizenship of Medina county who have the welfare of this community at heart, to assist in placing the community in a sanitary condition.

Good Eye-sight
is essential to health, comfort and appearance. Have you ever noticed a strained look on your face? Usually this comes from eye-strain. More wrinkles are caused by eye-strain than by old age. Headaches caused by eye-strain cannot be cured by medicine, it depends upon optical skill of the optometrist who prescribes the glasses. Having had 16 years experience in Medina County assures you of satisfaction.

Ex-Commissioner of Agriculture Ed. R. Kone and Fletcher Davis returned Friday of last week from a two week's itinerary over Bandera county, a report of which, taken from the Bandera New Era, appears on the inside pages of this paper. Judge Kone left Friday night for his home in Austin. Before leaving he expressed himself as having enjoyed the work in Bandera county and both he and Mr. Davis are hopeful of being associated in many more similar trips.

Notwithstanding the shortage of the cotton crop and the high price of merchandise the business people of Hondo, when approached on the subject, all report business fair with them. Very few of our farmers depend upon cotton alone. Most of them are diversifying with other crops and live-stock and are thus supplied with ready money for their necessities and, while not adding materially to their holdings, none are crying want. The substantial deposits in our banks show that as a whole our people are fairly prosperous.

Mr. and Mrs. F. Thumm of Del Rio were guests of friends here over Monday night while en route from Del Rio to San Antonio. After witnessing the military parade there Wednesday they expected to continue their auto journey to Fredericksburg and points in Mason County to visit relatives they have not seen for thirty years. Friends of Mr. and Mrs. Thumm will be pleased to learn that they are both enjoying excellent health and have prospered in a financial way since moving to Del Rio.

Some cotton fields in the Medina Valley north of the town of Bandera in Bandera County will not be picked at all and all have been severely damaged by boll weevils. A fair yield of corn is being harvested although considerable damage to that cereal from smut is reported from some fields. The pecan crop is almost a complete failure on account of damage to the trees by hail storm last year. Fall vegetables are doing well in many home gardens, but harlequin bugs are damaging some turnip patches. A good small grain crop was harvested in this section last spring and lots of land is being broken now for the new crop. This section is especially well adapted to the small grains and corn but most fields are in need of rotation. Grass on the ranges is fine and stock are in good condition.

FREE! TO OUR CUSTOMERS FREE!

In appreciation of cash business, we have decided to give to our customers, entirely free of charge, a full line of beautiful gold border decorated chinaware. With every cash purchase of 5 cents or over, we give a cash coupon for the amount of purchase and when you have accumulated these coupons to the amount of \$5.00, you receive a sealed envelope which contains a ticket good for one piece of chinaware. The ticket also counts for a certain number of points. If the ticket calls for a large piece of chinaware, it will call for a small number of points or if it calls for a small piece of china, then it will call for a large number of points.

Commencing Saturday, Sept. 23rd

Every Alternate Saturday promptly at 3 o'clock

we will present to the person who brings to our store tickets calling for the greatest number of points, a beautiful hand-decorated 7-piece Meat or Game Set.

This most interesting plan of distributing premiums is called the "Fair Play" premium plan and we are sure you will be delighted with the beautiful chinaware you can secure free.

You do not pay any more for the goods you buy from us—we simply divide the profits on CASH BUSINESS.

Agricultural Lecturers Here.

Ex-Commissioner of Agriculture, Ed. R. Kone, and Fletcher Davis, Field Agents of the State Department of Agriculture, are completing a very successful two week's itinerary over Bandera County at Myrtle today. During this time, they have visited and addressed nearly every school in the county and held an evening session of all of the regular farmers' institutes.

The trip was planned and executed by Mr. Davis to carry out, as he explained in his addresses, his desire to

bring to his people in Southwest Texas—both the school children and the farmers—some of the things the Department of Agriculture has for the people. One of these is the privilege of listening to and profiting from the counsel of a man so eminently qualified, through years of opportunities and experiences such as have come to no other man in Texas, to give advice along the lines of Agricultural thought and study—Judge Ed. R. Kone.

In his speeches to the school children, Judge Kone emphasized the importance of a worthy purpose in life, the necessity for and the rewards of a faithful performance of duty, and the advantages of grasping whatever opportunities present themselves. He pointed out the opportunities afforded by the farm and the dignity and the importance of the farmers' calling, and he stressed the duty of all to study and strive to improve and honor and dignify that calling in their lives on the farm.

To the farmers' institutes he urged organization to study the problems of the farm and the market and to cooperate in efforts to improve rural life conditions. He discussed in detail the preparation of the soil to conserve moisture and destroy insect pests, and counseled the improvement of crops by good seed selection. The planting of peanuts was especially urged as a part of a scheme of crop rotation for this section.

Mr. Davis dealt with several phases of soil conservation and crop rotation and urged specifically the early plowing under of all cotton stubble for the purpose of stopping the further sapping of the soil by the growth of useless vegetation; the turning of the humus back to the soil while it is green and sappy and will the more readily decompose, thereby restoring to the soil the plant foods contained in the stalks; and for the further purpose of stopping the further hatching of boll-weevils to go into winter hibernation and the removing as near as possible from all cotton fields all hibernating quarters for these pests. Now is the time, he urged, to safeguard the next year's cotton crop by fighting the weevils. Eternal warfare on these pests is the price of peace from their aggressions.

Messrs. Kone and Davis express themselves as well pleased with the reception accorded them at most places and only regret that they will not in the near future be able to avail themselves of an opportunity to respond to the many invitations extended them to pay a return visit to the people of Bandera County.—Bandera New Era, Sept. 29th.

BARNUM & BAILEY CIRCUS COMING.

Greatest Show On Earth Will
Positively Exhibit In This
Vicinity.

At last the welcome news has been announced that the youngsters and oldsters of this vicinity will have an opportunity to visit the Barnum & Bailey Greatest Show on Earth. This great circus will be within easy traveling distance when it exhibits in San Antonio on Oct. 14.

This year Barnum & Bailey announce an all new novelty circus, composed of more foreign acts than ever before. An important feature is the new, Oriental spectacular, pageant, "Persia, or the Pageants of The Thousand and One Nights." In this gorgeous display more than 1,350 persons participate. The Oriental music incidental to the production is rendered by 350 musicians, and 3,500 costumes are worn in the various actions of the pageant.

The circus program will be one of unusual novelty and variety. More than 450 arenic artists will appear in the various acrobatic, aerial and riding numbers, and an army of fifty of the funniest clowns on earth will keep the audience convulsed with laughter. Among the new acts to be offered for the time this season are four great troupes of Chinese artists, presenting a complete Chinese circus, replete with thrilling aerial and acrobatic feats. The famous Hanneford Family, champion riders of Europe are another new importation, as is also Signor Bagonghi, Italy's famous dwarf equestrian. More than twenty trained animal acts will be included in the program, headed by Pailenberg's two marvelous troupes of trained bears.

The Barnum & Bailey Circus is larger this season than ever before and require 89 cars to transport it. It carries 1,400 persons, 735 horses and a greatly enlarged menagerie of 108 cages and 41 elephants.

How Catarrh is Contracted.

Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The inflammation of the mucus membrane, at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life's burden. Many persons who have this loathsome disease will remember having had frequent colds at the time it was contracted. A little forethought, a bottle of Chamberlain's Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable everywhere.

J. F. Hardt has leased the Commercial Cafe from Dr. Roberts and moved this week to take charge. Mrs. Hamond, who has had charge of the cafe for a couple of months, has moved to the property formerly occupied by C. F. Phillips and Joe Davis, east of the court house.—The Uvalde Leader-News.

Despondency.

When you feel discouraged and despondent do not give up but take a dose of Chamberlain's Tablets and you are almost certain to feel right within a day or two. Despondency is very often due to indigestion and biliousness, for which these tablets are especially valuable. Obtainable everywhere.

DO YOU WANT A FARM?

Here is one of 310 acres of black sandy soil, four-room house, out-houses, good well, good fences, 165 acres in cultivation and nearly all tillable, eleven miles south of Hondo, in a splendid neighborhood and convenient to a good school. This is an ideal farm that can be bought at a reasonable price and on easy terms.

BIG CIRCUS DAY DRAWS NEARER.
Unusual Amount Of Local Interest Centered On Coming Of Barnum & Bailey.
The day of all days in the calendar of the small city has almost arrived and the thousands of this vicinity are anxiously counting the hours until circus day. It is now as though a large percentage of the local population, both young and old, will be present at one of the performances when the Barnum & Bailey Greatest Show on Earth exhibits in San Antonio on Oct. 14.
Not in several years has so much local interest been shown in a circus event as has been displayed this season in the coming exhibition of the Barnum & Bailey Circus. It is promised that the show will display more new and novel features than ever before, including 100 new acts from Europe.
The principal feature is the new Oriental, spectacular pageant, "Persia, or the Pageants of the Thousand and One Nights." This great display, which is portrayed by 1,350 persons, and hundreds of horses, elephants and camels, depicts in pageantry the famous tales of the Arabian Nights. In New York City, where this pageant was produced for the first time this Spring, it was announced the most gorgeous and stupendous Oriental display ever presented in America.
Among the foreign circus novelties to be seen for the first time this season are four troupes of wonderful Chinese performers direct from Peking, the Great Hanneford family of riders; Signor Bagonchi, famous dwarf equestrian from Italy; James Tilly, champion jumper of the world; Pallenberg's two troupes of trained bears, and a host of other novel acts too numerous to mention individually.
The Barnum & Bailey circus is traveling this season on five trains, made up of 89 cars. More than 1,400 persons are carried in the various departments of this great show, which also included an enlarged menagerie of 108 cages and 41 elephants.
A brilliant, new, three mile street parade will be given on the streets during the morning hours preceding the first performance.

Sabinal Sentinel Siftings.

Mr. W. E. Albrecht of D'Hanis spent Sunday with the home folks here.
Mrs. Will Turner returned yesterday from D'Hanis where she attended the wedding of her brother-in-law, Mr. Ben Koch.
Mr. Roy J. Davenport is dangerously ill with a complication of troubles. His condition has been critical now for a day or two. His sister, Mrs. F. J. Rheiner, of Uvalde has been over frequently. His brother, Mr. Oscar Davenport came in Wednesday night from Runge. Dr. R. G. Davenport came in yesterday from Snyder.
Mr. George Johnson, Jr. returned last week from San Antonio where he was in the hospital about a month on account of getting shot in both legs accidentally. His wounds are not entirely well yet, but we are very glad that he was so far recovered that he could return home. We hope that he will soon be entirely recovered.
Rev. Ball of Yancey preached here Saturday for the Primitive Baptists.

More Than Enough is Too Much.
To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Tablets and you will soon be all right again. For sale by All Dealers.

Another thing—if revenge is sweet why does the person seeking it look like the devil?
Used It Eleven Years.
There is one remedy that for many years has given relief from coughs, colds, croup and whooping cough. Mrs. Chas. Rietz, Allen Mills, Pa., writes: "I have used Foley's Honey and Tar for the past eleven years and I would not be without it." It promptly relieves hoarseness, tickling throat and wheezy breathing. Sold everywhere, and in Hondo by W. H. Windrow.

What Does Catarrh Mean?
It means inflammation of a mucous membrane somewhere in the head, throat, bronchial tubes, stomach, biliary ducts or bowels. It always means stagnant blood—the blood that is full of impurities. Left alone, it extends until it is followed by indigestion, colds, congestion or fever. It weakens the system generally and spreads its operations until systemic catarrh or an acute illness is the result.

Peruna
Is the nation's reliable remedy for this condition. It restores appetite, aids digestion, checks and removes inflammation, and thus enables the membranes through which we breathe and through which our food is absorbed, to do their work properly. Forty four years of success, with thousands of testimonials, have established it as the home remedy—Ever Ready-to-Take. Its record of success holds a promise for you.

With a quarter of a million dollars on deposit the Lacoste National Bank is a good index to the frugality, enterprise, and worth of our people hereabouts who are nearly all Americans of German descent.
Messrs. Eugene Keller and Herman Jungmann, who are attending School at St. Louis College, were visiting home folks Sunday.
C. R. Gaines, the Buick Car vendor of Hondo, was plying his trade here Thursday.
Henry Salzmann shelled corn Thursday and sold same to Medina Merc. Co.
Mr. and Mrs. J. L. Mechler and family were business visitors at Hondo Saturday.
Born, to Mr. and Mrs. John Zaecher Thursday, Sept. 21, 1916, a 9 1-2 lb. baby boy. Mother and child are getting along nicely while the proud papa is all smiles.
After this issue the Printing Plant of the Lacoste Ledger will be moved into the Bottling Works building on Castro Street just back of the Lacoste National Bank. Our removal was an involuntary one, for we rather liked our present location, but the owner of the property, Mr. A. E. Jungmann, is going to open on this place, a Cash Grocery in the near future.

Forget Your Aches.
Stiff knees, aching limbs, lame back make life a burden. If you suffer from rheumatism, gout, lumbago, neuralgia, get a bottle of Sloan's Liniment, the universal remedy for pain. Easy to apply; it penetrates without rubbing and soothes the tender flesh. Cleaner and more effective than musky ointments or poultices. For stains or sprains, sore muscles or wrenched ligaments resulting from strenuous exercise, Sloan's Liniment gives quick relief. Keep it on hand for emergencies. At your Druggist, 25c.

For Sale, a five-room house and two acres of land in the north part of town, known as the Causey place. This property will be sold cheap and on easy terms. Apply to Fletcher Davis, Agent, Hondo, or to R. I. Risinger, Owner, Tarpley, Texas.

WHEN IT LOOKS DARK TO ANY weak or ailing woman, Dr. Pierce's Favorite Prescription comes to her help. County Teachers Institute a Profitable One.
(By J. A. Poston.)
The Wilson County Teachers held their annual institute at Sutherland Springs September 4 to 11. Unusual interest was manifested throughout the week, indicating that Wilson county's schools are on a higher plane of efficiency.
The program through the week was enriched with discussions brought to us through the various departments of extension and representative men from our State institutions. Mr. C. A. Jay, chairman of the State Board of Examiners, discussed the use and method of handling the million dollar appropriation, and House Joint Resolution No. 30. Mr. Blockwell represented A. & M. College in an address on the teaching of agriculture in school and the school as the center of interests of a community. Mrs. E. M. Barrett in the interest of the Department of Agriculture, discussed home projects so closely connected with home and school life. Mr. Fletcher Davis, who is field agent for the Department of Agriculture, addressed the teachers on dissemination of expert agricultural knowledge through organizing the boys and girls in clubs fostered by the schools. Miss Amanda Stoltzfus, lecturer for the University of Texas, discussed phases of the Interscholastic League, and outlined tasks of preparation for the first day of school. W. G. Hand, Bexar county agricultural expert, discussed the home and school garden. So it can be seen from this brief outline that the teachers of Wilson county enjoyed the inspiration of these speakers, and no doubt reforms and advancement along industrial lines will be instituted by the teachers.—The Floresville Chronical-Journal.

Quality versus Quantity.
Many housewives make a vital mistake in choosing some of their foodstuffs on the basis of quantity. It has been proven time and again that the cheapest is always the most expensive, while the highest price is not always the best.
There's a happy medium in everything. When you select foods, be careful. Don't choose any particular brand of, say Baking Powder for example, just because you get a big can for a small price.
The risk you take in ruining your entire baking and losing the cost of the materials involved is not anywhere equal to the small amount saved on the price of the Baking Powder.
Then again, because the price is high, don't think the quality is the best. Some women do, and they are losing money.
Look for the happy medium. You'll find it. Choose a brand that costs a moderate price and you'll find it more economical to buy and more economical to use.
The best Baking Powder in the world can be made so as to sell for 25c per lb.

When You Take Cold.
With the average man a cold is a serious matter and should not be trifled with, as some of the most dangerous diseases start with a common cold. Take Chamberlain's Cough Remedy and get rid of your cold as quickly as possible. You are not experimenting when you use this remedy, as it has been in use for many years and has an established reputation. It contains no opium or other narcotic. Obtainable everywhere.

Behind the Demand.

There are two sides to every question, and if anybody thinks the Buick Motor Company has refrained from making cars for the sole reason that Buick dealers might not increase their business, or to prevent our friends who want Buicks from getting them, they are sadly mistaken. Nothing would please us more than to have cars enough to ship each dealer all he could possibly use, and enough to permit us to make immediate delivery to every man or woman who desires to own a Buick.

Usually, enough cars are made in the winter months to permit the building up of a reserve supply. Experience previous to last winter taught us that we could safely count on a relaxation in the demand that would give us an opportunity to stock up our branches and dealers with cars that would help them take care of the usual spring demand.

Last winter, as everybody connected with the Buick organization knows, the demand for Buick Valve-in-Head motor cars did not let up in the least over what it had been during the preceding fall and summer. While other manufacturers, to our certain knowledge, were storing cars liberally by the thousand, in every available warehouse and storage room at every distributing point in the country, Buick was never able to catch up with the current demand. All this time the Buick factory was building cars as fast as any factory in the country. Regardless of extravagant advertising statements to the contrary, Buick cars were being built all last winter in just as great number as any car in the country in its price class. But Buicks were being sold white-hot, and thousands of the others were being stored.

Thus, when spring came there were plenty of cars to be had of other makes, while Buick dealers were forced to delay deliveries. And thereupon many Buick dealers began to fret, and only have been worried ever since. Many would be Buick owners have grown impatient also, and profess to be unable to understand why it is that Buick cars can be bought right in the face of the great shortage of Buicks.

DADDY'S EVENING FAIRY TALE

FAIRYLAND BALL.

"For days around this Ball I am going to tell you about," commenced Daddy. "There was talk of nothing else in Fairyland. The little Elves would meet the Brownies and would ask them if they had their costumes all ready for the big event. The Fairies would meet the Butterflies and ask them if they were getting ready for the Party. For the Butterflies had been invited, and the Party was being given by the Fairy Queen."

"The Fairy Queen had told all her Guests that they could ask each other if they were getting ready for the Party, but they must not ask what anyone's costume was to be—for there were to be any number of surprises at this Ball."

"The Fairy Queen sat on a throne made of bright pink Phlox and her gown was of bright pink, too. Her wand was of silver and pink, and her wings matched, of course."

"Opposite the Fairy Queen was a stand made of Moss and tall Ferns. But there didn't seem to be a sign of

They Got Marvelous Presents Out of the Bag.

anyone on the stand. As the Guests began to come in they all wondered what it was for.

"Take your Partners for the first Dance," cried the Fairy Queen.

"And then the Ferns on the Moss stand began to move, and right out in the front of the stand stepped the Fairy Yuhb with her orchestra of Fairies and little Wood Creatures. They were all dressed in gowns of Ferns, and the Fairy Yuhb waved a long, big Fern for the others to keep time by. "But I must tell you about the costumes, for they were so beautiful. The Brownies all came wearing little suits of green and tall green hats. Everyone was so surprised to see them in green for, of course, they seldom wear any color but their favorite brown."

"The Elves wore costumes made of pine needles, and they made almost the greatest impression of all. The Fairies were every color you can possibly think of, so Fairyland was ablaze with color."

"Last of all came the Butterflies in their very, very best. And you know the best suits and dresses of the Butterflies are about as handsome as any you can find."

"They all danced for a very long time until at last the Fairy Queen called out: 'Supper is ready, and we're going to have it around the Throne. Come gather around!'"

"All the Guests hurried to the Fairy Queen's Throne—but before they had a chance to get there—all of a sudden—what should they see before them but tables—countless tables which were nothing else but the Toadstool family who had lent themselves for the occasion."

"Around the tables all the Elves and Brownies, and Fairies sat on still smaller Toadstools which made excellent seats. The Butterflies sat on the Tables—where they were not the least scamp in the way, and they liked to dither forth from one Toadstool to another and taste the different flowers. The Fairy Queen had scattered about."

"Yes, there was delicious Flower honey for the Butterflies, and every time they flew from one Toadstool to another the Fairy Queen would wave her wand and fresh flowers would fall down—just like a storm of flowers."

"For dessert the Butterflies had wonderful honey from Wild Roses. And the rest of the guests had all the goodies they wanted—but at the very end of the Supper, the Fairy Queen said:

"Now for the Grab Bag!"

"Just then an enormous black Bird flew down, carrying a bag many times larger than he was, and after dropping it in a corner of the wooded grove, he flew about over it, blowing and puffing for all he was worth. The Bag seemed to get bigger every minute."

"Enough," said the Fairy Queen, and the black Bird stopped blowing into the Bag, and flew over to a saucer of Worms and a dish of fresh Water the Fairy Queen had ready for him behind her throne."

"Then she waved her wand and told all her Guests to try for the grab bag. Such fun as they all had, and they got marvelous presents out of the Bag. For the Butterflies there were Baskets made of flowers holding very rare honey—which was the biggest surprise of all."

Before laying the blame on another, it is well to question ourselves as to our own share of responsibility for what has gone wrong.

Baby Monoplane.
 What is undoubtedly the smallest successful monoplane in the world has recently been constructed by a Californian. In addition to this distinction the machine is almost as unusual in design as it is in size, for it is driven first by an ordinary seven horsepower, twin-cylinder motorcycle engine. It weighs, complete with its gasoline tank filled, only 238 pounds, has a wing spread of 18 feet, an overall length of 16 feet, and a supporting area of about 90 square feet. The motor drives a 4½-foot propeller at about 1,400 revolutions a minute, giving the craft a speed of nearly 60 miles an hour. The power plant is placed at the extreme rear of the machine, so that its weight is balanced by that of the pilot who rides several feet ahead of it. The machine has been driven a number of times, and during these flights has remained in the air from 15 minutes to half an hour.—Popular Mechanics Magazine.

Wrong Stocking Stolen.

On one of the coldest nights this winter Mrs. Annie Dietz of 115 Mechanics street prudently wore woolen sleeping hose when she went to bed. Testifying in court against Michael Arenewich, who was held in \$500 bail on the charge of burglary and attempted theft from person, Mrs. Dietz said: "As I was placing a roll of \$100 in my stocking I heard a slight noise, and looking out thought I saw this man stepping back from my bedroom window. The next I knew I was awakened by feeling one of my stockings being pulled off. Before I could turn on a light the intruder jumped through the window and disappeared with my left stocking."

The chief reason why Arenewich was charged merely with attempted theft was that Mrs. Dietz put the money in her right stocking.—Hartford (Conn.) Dispatch to New York World.

The Man With No Initials.

Playgoers everywhere will regret to hear that that fine actor, Mr. Charles Hawtry, has had heavy financial losses owing to the war.

Mr. Hawtry can be as humorous off the stage as he is on it. On one occasion he was talking to a friend about peculiar names and initials.

"By the way," he said, "I have a friend who is in a most unfortunate position. He actually has no initials."

"No initials?" exclaimed his friend in amazement. "Why, how can that be? Hasn't he got any name?"

"Oh, yes," answered Mr. Hawtry, with a twinkle in his eye. "But you see, each of his names begins with an aspirate and, being cockney, he always drops his h's."—Reclama's.

May Be Valuable Find.

Workmen digging in the bay of Guanabara, at Rio de Janeiro, recently brought up a quantity of pure phosphorus. Acting on the belief that a deposit of value had been tapped, the government was advised of the discovery and it has ordered an investigation to determine the probable size and value of the body of mineral.

To My Friends and Customers.

I will spend the next month in Medina county and ask that you don't say your fruit, shade or ornamental trees until you see me.

I understand a certain man is now in Medina county making statements about Mr. Ramsey and his nursery that are utterly false and untrue, and last year delivered trees in one portion of my territory with out-of-date inspection certificates which is now, or soon will be, investigated by the state authorities. Respectfully,
 JOHN A. HEAD.

We Have Moved.

We wish to announce to our friends and customers that we have moved our tin shop to our new building on the east side of College Square.

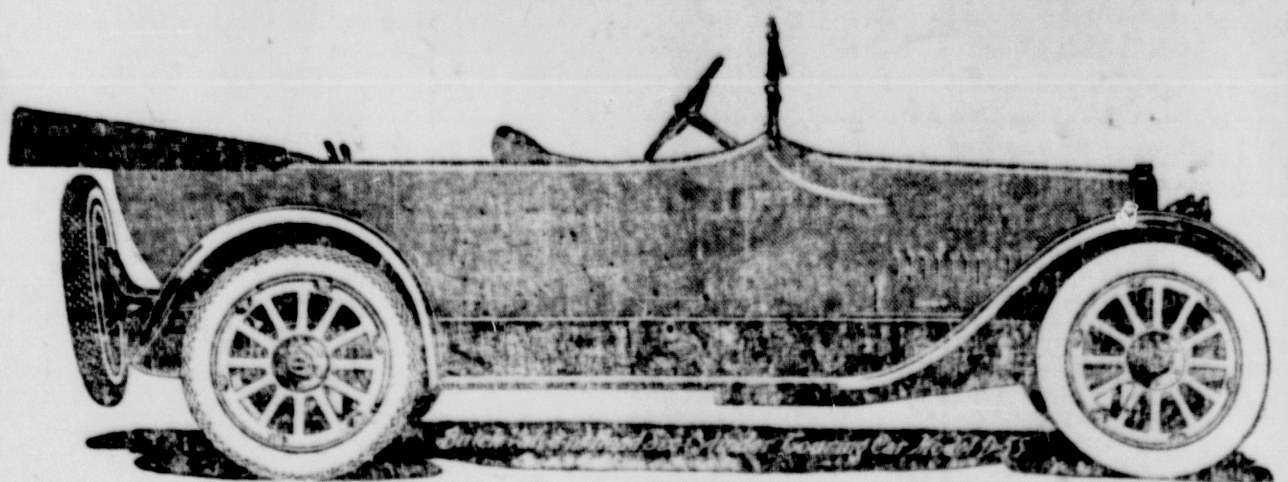

We are now better prepared than ever to do all kinds of tin work and plumbing.

Call on us at our new location.
